AS/NZS 3012:2010 2 PREFACE This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee EL-001, Wiring Rules, to supersede AS/NZS 3012:2003. The objective of this Standard is to establish sound practices for the safe use of electricity at construction and demolition sites.

AS-NZS 3012: Electrical installations - Construction and ...  
Refer AS/NZS 3010 and AS/NZS 3012. An RCD is intended to isolate supply to protected circuits, socket-outlets or electrical equipment in the event of a current flow to “ earth ” that exceeds a predetermined value. For a mobile generation set used on an industrial site the maximum value is 30 mA (milli-Amp). Refer AS/NZS 3012 Clause 2.4.6.3.
