Color Mfa Golf 4 Forum

On MFA clusters, the plastic housing just unclips and pulls off. Remove all the LED's originally behind the L Ds. In the case of FIS, also remove the i-Color LEDs. These LEDs do not require jumper resistors. Leave them "open". Also trim the 2 rows standoff pins down so that they will not interfere with the ColorMFA board and wires. Also not a bad idea to cover these areas up with Kapton ...

If all of the above is correct, with the mfa display try pulling the fuse, can't remember of the top of my head which one it is now but there is a thread on here with fuse locations. Remove for about a minute and replace this often corrects the fault. If that doesnt work it could be a faulty lcd screen and may need replacing.
