Flag patterns are relatively easy to recognize on charts and follow straightforward strategies. As the name suggests, being able to identify flag shapes on a price chart is part of the setup. The way that the flag is "blowing" indicates the direction of the primary trend, and represents a stock going through a strong uptrend.

Learn 4 Profitable Chart Patterns for Swing Traders

The stock exceeds the morning range with an increase in volume after 2 pm. The stock is able to clear the range by .2%. Profit target is the size of the move that preceded the trading range. Stop loss is the middle of the range. This would imply the stock failed on the breakout attempt and is now falling back inside of the range from the morning.

A continuation trade setup is based on finding an entry point in an existing trend. Trends are where traders are likely to make the most money, so having a few continuation setups in your strategy arsenal is crucial. Perhaps the most important thing to remember with this setup is that prices never move in a straight line, at least not for long.
