What is SmartXide? SmartXide is a fractional CO₂ laser treatment that uses dermal optical thermolysis (aka DOT therapy) to treat skin conditions like wrinkles and fine lines, hyperpigmentation, enlarged pores, loss of elasticity, and acne scars. Traditional CO₂ lasers are ablative, which means they remove the skin's surface layer.

SmartXide DOT Laser Treatment | RealSelf

Deka Dot, also referred to as SmartXide, has a variety of adjustable features to customize treatment for a number of patient concerns. Deka Dot is able to adjust the size and pattern of the laser treatment (square, rectangle, or circle), number of pulses/depth penetration, laser strength, as well as scanning pattern.

Deka Dot - Procedure Overview, Cost, Recovery, Before ...

I opted for a lighter treatment with the SmartXide DOT CO₂ Laser. I was afraid of extra downtime going with a deeper treatment, and scared based on the fact I have no experience with the laser - or any cosmetic procedure for that matter. I am sure...

Smartxide Dot Lasers M Dicos - chimerayanartas.com

DOT Therapy is a process whereby microscopic dots (somewhat like mini-channels) are created in the skin using CO2 laser energy (fractional laser). The pin-point channels resemble columns. These are essentially "scanned" onto your skin with a "scanner hand piece" that creates super-fine channels through different layers of your skin.

My DOT Therapy Photo Diary (CO2 Laser) | Coco Ruby Melbourne

The SmartXide is the most advanced fractional CO2 laser that treats deep into the skin around your eyes to plump up wrinkles, tighten the skin, lift sagging brows and improve the appearance without the need for surgical incisions. 2. How does it work? Using DOT Therapy, only a fraction of the skin is treated at a time.

SmartXide DOT CO2 Laser - The Cosmetic Skin Clinic

The SmartXide Tetra CO2 laser is one of the most advanced CO2 laser technologies available, with the ability to perform a broad range of treatments including a CoolPeel treatment. You can easily select the precise power, density, and pulse durations needed to tailor and optimize treatments to fit your patients' expectations.

SmartXide Tetra CO2 - Motus AX/AY Laser, Quanta System ...

The SmartXide Dot is a new innovation in CO2 laser technology. The CO2 laser the gold standard in skin resurfacing technology since it was first reported in 1991 produces superb results for patients. However, traditional CO2 laser resurfacing procedures removes the entire skin surface, which results in a prolonged and somewhat difficult recovery.

SmartXide Dot CO2 Laser Treatment | Innovations Medical

The SmartXide CO2 laser is an FDA-approved resurfacing laser that can dramatically restore your skin's youthful appearance without the downtime and discomfort required with traditional resurfacing. DOT therapy (Dermal Optical Thermolysis) affects only a fraction of your skin by creating thousands of microscopic laser spots ("DOTs") in your skin which induce immediate skin tightening and stimulate new collagen growth.

Smartxide Dot Laser Surgery - North Dallas Dermatology ...

DOT Therapy is performed using the SmartXide DOT CO laser system, featuring the unique Hi-Scan DOT Scanner with Infinite Delivery Options for ablative skin rejuvenation with rapid healing. DOT Therapy (Dermal Optical Thermolysis) is the leading micro-ablative approach to laser skin rejuvenation. Addresses the following concerns:

SmartXide DOT Laser | Skin Rejuvenation Cincinnati

SmartXide by Deka Lasers in Italy have now provided us with a CO2 fractional system with a super-fast scanner that can allow us to do a "Dot Resurfacing" of the whole face and neck in 20 minutes. The dot pattern, both in terms of power, spacing and duration can be tailored to your skin-type and degree of damage.
